Minnesota

Since July 1, 2011, Minnesota requires the use of interlocks for all repeat and first-time convicted drunk drivers with a BAC of .16 or greater. First offenders with a BAC of .08 to .15 are eligible to go an interlock for a 90 day license revocation. However, 80 percent of first offenders plead down their DWI to a 30 day license revocation and avoid an interlock. As of December 2017, there were 12,799 interlocks installed. Between 2006 to 2018, interlocks stopped 74,129 attempts to drive drunk, including 7,802 in 2018.

Why MADD does not call the law all-offender? Interlocks are not required for all first-time offenders in order to drive.
