Always wear your seat belt. No matter where you sit in the car. Did you know that seat belt use is lowest among teen drivers? The majority of teenagers involved in fatal crashes are unbuckled.

Limit the number of passengers. Research shows that the risk of a fatal crash goes up in direct relation to the number of teenagers in the car. It’s your responsibility when your friend is driving to not distract them by being loud or rambunctious.

Eyes on the road, hands on the wheel. That means no electronic devices, no eating while driving, doing your makeup or messing with the radio too much. Keep your focus when driving, and never consume alcohol or other drugs under the age of 21.

Follow the speed limit. In 2019, speeding was a factor in 27% of the fatal crashes that involved passenger vehicle teenage drivers.

Never, ever ride with an impaired driver.

Take A Stand

- **Make the choice.**
  To never consume alcohol or other drugs under the age of 21.

- **Make a pact.**
  With your friends to not use substances under 21. You don’t have to go it alone.

- **Respect the road.**
  Practice safe driving, and be a considerate passenger.

- **Have a plan.**
  For when you’re in a situation where there’s alcohol or other drugs. Look out for your friends and peers, especially if you think they may be using substances.

- **Never let a friend drive impaired, and never ride with an impaired driver.**
  Call a trusted adult for a safe ride home, or call 911 in an emergency.
